

# ARKLE

ARTWORK AND GALLERY STORAGE

## PRODUCT FEATURES

ARKLE gallery solutions allow for the maximum utilisation of space for artwork and object storage, removing the need to handle individual items and ultimately reducing the risk of damage to artefacts.

With variations in both wall mounted (01) and pull-out (02) solutions, systems can be tailored to meet bespoke building or object storage requirements.

Popular RAL colour choices include:

PLEASE CONTACT US TO MAKE AN ENQUIRY OR TO DISCUSS YOUR CUSTOM ARKLE SOLUTION.

## 01

## STATIC FRAMES FOR WALL OR FLOOR &amp; CEILING MOUNTING

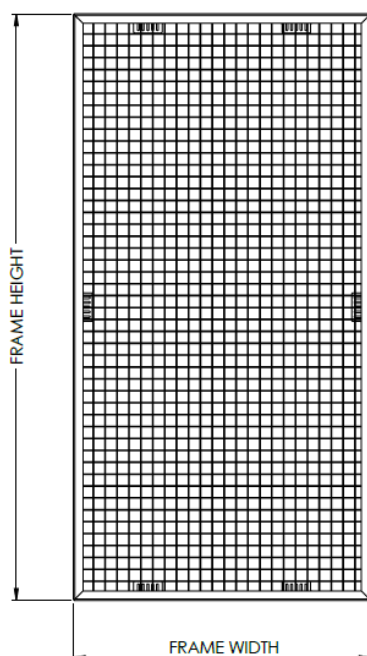

- Wall racks require a suitable supporting wall or concrete floor for fixing
- 25Kg per square metre load limit per frame
- Units can be ordered to any RAL finish
- High quality steel construction
- 50 x 50mm aperture to mesh
- All frames have a thickness of 40mm

Arkle racking systems can be tailored to meet individual briefs:

- Bespoke size requirements
- Special storage requirements
- Room and environmental constraints
