3 bay corner unit 1455 wide x 1455 deep x 2050 high mm; steel with rubber
surface; 3 overhead cabinets; perforated panels; 1 cabinet; 1 cupboard; 1 bin

OUR CORE PRODUCTS INCLUDE:

- **Highly durable workbenches** manufactured from high quality steel - they can be used as a general space for working or designed to support specific tasks.
- **Workshop storage cabinets** which can be fully customised to optimise the wall space under counter or overhead. Corner units make best use of awkward alcoves so no space is wasted.
- **Mobile toolboxes** bring tools and equipment closer to where you are working. Bring out what you need, when you need it and keep it secure at all other times.
- **Customise internal drawer tray systems** with our routed foam inlays to keep tools and small items safe and organised, saving you time and reducing waste through lost assets.

Polstore is trusted by the automotive industry. Our storage solutions have been tested by leading car manufacturers and race teams, meaning you can be assured our products are quality guaranteed. We also offer a 10 year warranty on our products as standard, and a lifetime warranty on all drawer slides.

DESIGN THE AUTOMOTIVE WORKSPACE OF YOUR DREAMS

We can help you to bring your vision to life and deliver an exceptional storage solution. Our experienced design team will help you to develop ideas and design the ideal set up which achieves your objectives and works for you today and in the years to come.
