

The background of the page is decorated with a grid of rectangles in various shades of blue and purple. The rectangles vary in size and are arranged in a somewhat random pattern, creating a modern, geometric aesthetic. The colors range from light blue to dark purple.

FAMEPLA

WORKSPACE STORAGE EQUIPMENT

A leading manufacturer of metal workshop furniture Famepla was established in 1998 and is based in Pieve del Grappa, Italy. The manufacturing process is managed inhouse so that each phase is controlled ensuring the quality of our products achieve a guaranteed consistency. Thanks to the experience gained over the years, Famepla is a company capable of fulfilling the needs of a wide range of customers and sectors: engineering, military, education, aerospace, transport, automotive, medical and heritage.

All products are assembled every day at our production site and are designed to meet the needs of a very wide range of users. Design and creativity is combined with a focus on health and safety supporting our clients achieve their goals around the world.

Our product range includes more than 30,000 items of which more than 300 are available in stock with a rapid delivery. We are present worldwide through an extensive sales network where our clients are served directly or through our partners and authorised dealers.

WHY CHOOSE FAMEPLA?

QUALITY

Famepla manufactures and supplies industrial furniture for industries and warehouses all over the world. Our high-quality product range includes storage cabinets, cupboards & lockers, workstations, CNC tool storage and transportation, shelving and plastic container storage solutions. The quality of our products is guaranteed by the professionalism and experience of our team with a complete MADE IN ITALY process.

FAST DELIVERIES

At Famepla quality and fast delivery count and have always been our strength. As of today, an eXPress selection, featuring a range of ready-in-stock products, is added to this catalogue. Just look for the 'S' at the front of our part numbers. You won't find any better.

CUSTOMISATION

We offer versatile, integrated solutions based on the specific needs of each customer. A team of designers and technicians with 20 years' experience is at your disposal to offer you the best possible solution.

GREEN SINCE THE BEGINNING

We strongly believe that a major part of sustainability includes the longevity of a product. Our products are made to last so there is less waste in the long run. We are also very concerned about the source of materials and we only collaborate with certified suppliers that perfectly fit our way of working.

OUR COLOURS

The colour combinations are mixed directly in our factory, which allows us to achieve high quality standards. In addition to our standard colours, the chosen product can be produced in any desired colour.

MOBILE TOOLBOXES

If you're looking for a workshop storage solution which offers mobility and can accommodate heavy and fragile items, then our mobile toolboxes should be top of your list. Ideal for when tools and equipment need to have more storage flexibility and close access to the working area. They are also modular in design so can be configured to adapt to your needs. With all the same performance as our drawer cabinets but with the following additions:

- Oversized top drawer
- Central locking mechanism
- Drawer loads up to 200kg
- 2 fixed / 2 swivel braked polyurethane castors Ø150mm

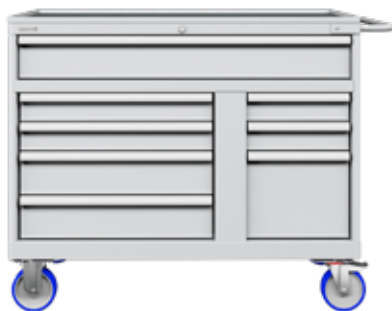

PERSONALISE YOUR MOBILE TOOLBOXES

Door

HINGED DOORS

A metal storage cabinet with hinged doors protects from dust while providing full visibility of contents. The hinged doors are available as a solid metal sheet with internal perforated panels to support plastic containers and hooks or in Plexiglas® for greater visibility and a tidier arrangement of stored items.

- Perfect vision due to Plexiglas® doors
- Order and organisation with containers and hooks
- Customisable by adding shelves and drawers
- High capacity up to 600kg

SLIDING DOORS

A sliding door cabinet protects from dust while providing full visibility of contents. Doors are available in a solid metal sheet or in Plexiglas®, for greater visibility and a neater arrangement of the contained items. Ideally suitable for storing materials in confined spaces, as doors do not protrude out of the cabinet's footprint when opened.

- Perfect vision due to Plexiglas® doors
- Suitable for confined spaces because no functional area is required
- Customisable by adding shelves and drawers
- High capacity up to 600kg

PERSONALISE YOUR SLIDING DOORS CABINET

WORKBENCHES

Our workbenches can be built as static stand-alone units or with the simple addition of castor sets, can also be made mobile. Manufactured from high quality steel our modular workbenches are highly durable and are supplied with various worksurfaces and accessories.

- High load capacity up to 1500kg
- Drawer load up to 100kg
- Wide range of layouts including cabinets, shelves and utility options
- Perforated back panel system achieves rapid access to stored parts

STORAGE WORKBENCHES

Compact workbenches offer a versatile, modern and robust solution for production, workshop and laboratory areas. Drawers, doors, shelves and castors can be added to the workbench to create a fully customised workstation.

- High load capacity up to 800kg
- Centralised lock
- Modular system fully customisable
- Static and mobile options

PERSONALISE YOUR STORAGE WORKBENCHES

Scan the QR code and download the dedicated section to discover more modules and combinations.

PERFORATED BACK PANELS

The perforated tool panel has 10x10mm square holes, with a 38mm pitch, and constitutes a fundamental element for your industrial workstation or work area. It can be installed on dual-slotted uprights fitted to workbenches and trolleys, on walls by using appropriate brackets or inside a shadow board roller shutter cabinet that can either be bench mounted or wall fixed.

- Quick visual access to tools using hooks and shelves
- Easy assembly
- Customisable due to modular system
- Integral with our full product range

COMPUTER CABINETS

A critical part of daily working practices includes the maintenance and audit of hardware, computers and other electronic devices – especially in workspaces which create dust, swarf and air pollutants. Our wide range of PC cabinets and quality stations helps combat the daily degradation and abuse these expensive and essential items receive.

- Central locking system
- Modular system
- Built-in ventilator and dust filter
- Roller shutter cabinet

PERSONALISE YOUR COMPUTER CABINETS

 Drawer front H: 3x300 T

CNC TOOL STORAGE

Reduce down time, increase efficiency, space save and reduce costs with our cnc tool storage and transport solutions. Our tool holders are made of ABS, resistant to impact and mineral oils, and are available in various designs and sizes to accommodate different types of spindle. The holder is screwed to our insert frame and tool cradle or attached with a catch fastener.

- Super density CNC tool storage
- For all tools types
- Solidity guaranteed by impact-resistant materials
- Frames fit to trolleys, machine cabinets and CNC cupboards

PERSONALISE YOUR CNC TOOL STORAGE SYSTEMS

Scan the QR code and download the dedicated section to discover more modules and combinations.

JUMBO SERIES

The new JUMBO shelving series are modular structures to which drawers, adjustable and pull-out shelves and hinged doors can be added. They are an economical alternative to shelving with drawers, but with the same load capacity.

- Modular system
- Load capacity up to 200kg per drawer
- Economical solution
- Wide range of accessories

ADJUSTABLE SHELVING

Adjustable shelving makes it possible to catalogue tools, objects and goods efficiently organising your stores and warehouse space. You can configure the shelving with the addition of central and side panels, dividers, both hinged and sliding doors and colour options. Also ideal for office areas where a heavy shelf load capacity is required for box files and stationery storage.

- Capacity to extend with additional bays
- High load capacity up to 100kg per shelf
- Fast assembly and quick shelf adjustment
- Fully customisable with a wide range of accessories

SHELVING WITH DRAWERS

Shelving with drawers combine all the advantages of drawer cabinets within a heavy duty shelving system. Horizontal and vertical drawers, adjustable and pull out shelves, can be combined to create a wide variety of layouts. Design for heavy and repetitive use accessories include doors, CNC tool frames, perforated panels and unibox tilt bin container storage.

- Load capacity up to 5500kg per upright
- Modular system
- Height up to 2.5m
- Wide range of accessories

 1x Vertical drawer 250mm - Extension: 100% - Load capacity: 200kg
 12x Tool cradle
 1x Anti-tilt mechanism

Vertical drawers

Modular shelf unit in three different sizes with vertical drawers with a maximum load capacity of 200kg.

The drawers allow space-saving storage of tools and work material and can be individually configured with adjustable shelves, plastic and UNIBOX containers, perforated rear panels and tool frames.

Adjustable shelves

Height-adjustable shelves provide an ideal storage surface for a wide range of plastic boxes to store tools and small parts.

UNIBOX containers

UNIBOX tilt bins consist of a shock proof structure (ABS) and polystyrene drawers with high resistance and pivoting opening. Ideal for storing small components.

Tool frames

The tools can be stored in an upright position supported within the vertical drawer frame. This ensures safe space saving storage.

Perforated panels

Rear panels with square holes 10x10mm and center-to-center distance of 38mm. Extendible perforated rear panels enable flexible attachment of stored items thanks to a wide range of hooks.

UNIBOX SERIES

The UNIBOX Tilt Bin system offers an excellent way of storing small parts in visible locations – this promotes visual stock control and negates migrating stock. Available in different models by depth and height, they all have a width of 600mm which allows them to be stacked in a variety of combinations.

- Organisation thanks to the possibility of creating customised combinations
- Easy identification with transparent drawers
- Optimal access with pivotal opening
- Stackable on trolleys, frames and vertical drawers

TROLLEYS & SHELVING

Stackable plastic containers made of high-grade polypropylene, suitable for storing small and medium-sized material. Two versions are available depending on the need for use. Both have double front walls that ensure maximum stability even when stacked.

- Solidity guaranteed by the strength of polypropylene
- Stackable to facilitate organisation and minimise space
- Easy access thanks to the front opening shape
- To combine with shelving, trolleys and cabinets
